

119x38mm

- ▶ 5V, 12V, 24V and 48V Models
- ▶ Polarity Protected
- ▶ Permanently Lubricated Ball Bearings
- ▶ Alarm/Tachometer/Thermal Speed Control/PWM Speed Control Options
- ▶ Sound-Absorbing Thermoplastic Frame and Impeller Rated V-0
- ▶ Color-Coded 11.8 in. (300 mm) Leads

Note: Air flow, current, power, speed and sound level ratings are at nominal voltage against zero static pressure. NPEL = Noise Power Emission Level. The first character of the model number designates the housing material and flange configuration (B = thermoplastic housing with open flange). TA450DC fans are also available as 'A' models (die-cast housing, open flange) and 'C' models (thermoplastic housing, closed flange). Die-cast metal versions weigh 21.2 oz. (600g). Power termination, control and signal options are designated by two-digit suffixes added to the model names: For color-coded 12-inch power leads with stripped ends, add "-16" to the model numbers.

† L10 bearing life expectancy at $T_A = +40^\circ\text{C}$, nominal voltage. Failure criteria for life testing that establishes this figure include a 15% reduction in fan speed or a 5 dBA increase in sound pressure.

^Δ Air flow reversed: Air inlet is on the strut side of the fan.
